Havanese Haven

Questionnaire

Thank you for your interest in one of my Havanese puppies.

All our puppies are \$3500.00. Puppies will be certified healthy to the best of my and my veterinarian's assessment. They come from AKC Champions. Both parents will have passed the health testing recommended by The Havanese Club of America and the AKC. Puppies will be microchipped and will be registered as purebred by the AKC (American Kennel Club). A copy of the true pedigree will be provided as well as a record of examination by my veterinarian.

By filling out this questionnaire you help me understand what you are looking for in a puppy; and which puppy will be best for your lifestyle. Please read these questions carefully and answer them honestly with as much detail as possible. There are no 'right' or 'wrong' answers

Please copy and paste the following questions into an email, scan and send back to i7carney@gmail.com . Or, send it snail mail. You can contact me for the best address.

Havanese can inherit some debilitating health issues though, thankfully, ours have not. As a breeder I try to avoid issues through health testing. However, genetics being what they are, issues can arise from a long gone ancestor. It is helpful if I am alerted to any issues your puppy encounters. We ask that you act responsibly by having the following tests performed when your puppy is 2 years old: Hip dysplasia, patella issues, cardiac issues and hearing issues. These are the problems some Havanese can inherit.

Are you willing to do this? _____

What do other family members think of your getting a puppy?

Puppies are inherently active, curious, unpredictable and playful. Do you think you have the energy levels necessary to keep up with them? _____

What do you suspect might be your greatest challenge in raising your puppy?
